English Literature	X	Add ENGL 211 and ENGL 224/224H electives to degree	Did not complete review at 9/21 Curriculum Committee	Fall 2024

New Programs				
Program Title	Originator	Justification	Semester Effective	Committee Action
Heavy Truck Maintenance	S. Boldt	Our industry partner Athens Services, approached us requesting a certificate that creates a pathway for an entry level style technician. Athens is working with the city of Pomona to generate job opportunities for the Pomona residents and Athens would like to use our diesel program as a pathway for those residents. Athens requested a certificate path that included training on basic shop safety, preventative maintenance inspections, proper repair order documentation, air brakes training, tire services, and basic hydraulic maintenance and repairs. Since we already have courses established that cover these areas (MTRK 101, MTRK 164, and MTRK 160) we decided that creating a new entry level certificate that includes these courses would meet the demands of not only Athens, but any future potential industry partner requiring entry level training for their technicians. Furthermore, this certificate would be an additional award that our students can receive as they progress through our program.	2024-2025
