Discussion Items

- SLOA Focus Area

Catie initiated a discussion about Student Learning Outcome Assessment (SLOA) competency areas. The committee reviewed the current list and considered potential changes, including removing "other" and clarifying definitions. They discuss the importance of providing guidance to faculty on selecting appropriate competencies for their courses and the possibility of adding help text to the course form. The group agreed to create a Padlet for brainstorming ideas on defining each competency area, with input from committee members and their discipline partners. They noted that the SLO workflow is available for modifications at any time.

Information Items

- CCN Updates

Michelle discussed the Common Course and Learning updates and ADTs. She mentioned that they successfully completed phase one. Phase two is currently in progress, and will be split into a part A and part B. Phase three is also underway, with different courses being reviewed by faculty each week. They are planning to discuss a possible phase four in a meeting on May 8th. Michelle discussed the challenges and costs associated with the faculty participation process, particularly in phases 2 and 3.

- ADT Updates

Michelle mentioned the formation of a committee to review the single GE pattern and BTS, and the resulting legislation AB 2057, which aims to align transfer model curriculum with UC transfer pathways in specific subjects. She proposed restructuring Area 5 to meet unit limitations of the ADTs, but this proposal was met with resistance from CSUs. She also mentioned the alignment of transfer courses for UC and CSU, and the potential changes to the district GE pattern. Lastly, she discussed the upcoming 18-month clock for implementing new mathematics and physics ADTs.

Michelle discussed the changes in the Elementary Education curriculum, specifically the removal of math for future teachers from the core courses. She also raised concerns about the impact of these changes on students and the potential need for prefix changes and numbering system adjustments. She mentioned that the curriculum committee would likely tackle these issues in the future. She also discussed the need for a communications plan to support students navigating the changes, including the potential for a web page and portal updates.

Meeting Adjourned: 3:40 p.m.
