## Message to Our Community

On March 2, 2004, the voters of the Citrus Community College District approved the Measure G Bond, allowing Citrus College to implement a capital improvement program designed to improve and expand facilities essential to supporting a high-quality educational program. As Chair of the Citizens' Oversight Committee, I am pleased to present the 2016 Measure G Annual Report.

This year marks the committee's 11<sup>th</sup> Annual Report to the Community.

Members of the Measure G Citizens' Oversight Committee are appointed by the Citrus Community College District Board of Trustees to serve up to two consecutive two-year terms as volunteers of our community, representing members from the business community, senior citizen organizations, taxpayer organizations, the college foundation, the community at-large, and the student body. The committee's purpose is to ensure that the District adheres to the requirements of Proposition 39, serving as the community's eyes and ears, and representing the voice of local residents and taxpayers. As such, the committee monitors the expenditures of the Measure G program for compliance with the voter-approved ballot measure, inspects progress made on Measure G-funded projects, and receives and reviews the financial and performance audits conducted by an independent certified public accounting firm.

For the fiscal year ended June 30, 2016, Vicenti, Lloyd & Stutzman, LLP, performed the Measure G audits which included an examination of the District's compliance with the financial and performance requirements of the Proposition 39 Measure G General Obligation bond program, as specified in section 1(b)(3)(c) of Article XIII A of the California Constitution. The committee is happy to report that the audit did not contain any findings; the auditors concluded that the District complied, in all significant respects, with the requirements of Proposition 39, and that the District's Measure G financial statements present fairly, in all material respects, the respective financial position of the Citrus Community College District Measure G Bond Construction Fund as of June 30, 2016.

During 2016, in addition to continuing construction, planning and design for the remaining Measure G modernization projects—Hayden Hall, Campus Center and the Educational Development Center—the committee was especially excited to see the completion of the Visual Arts Building and participate in its Grand Opening and Building Dedication Ceremony. The new 37,000 square-foot, three-story facility is now home to an art gallery, computer labs, drawing, painting and printing studios, a ceramics lab, lecture space, and the college's student newspaper, the *Clarion*.

The committee commends the Citrus Community College District Board of Trustees and Superintendent/President Geraldine M. Perri, Ph.D. for their vision and leadership in providing state-of-the-art facilities and technology for current and future students of Citrus College and the communities which it serves. On behalf of the Measure G Citizens' Oversight Committee, we also extend our sincerest gratitude to you, members of the District's communities, for your investment in the future of *your community's college*.

Sincerely,

A handwritten signature in blue ink that reads "Shauna Pierce". The signature is fluid and cursive, with a large initial "S".

Shauna Pierce  
Committee Chair

## Developing the Future of Our Community

*State-of-the-art facilities such as the new Visual Arts Building now house some of Citrus College's most successful and rapidly expanding programs. As Citrus College continues to improve its infrastructure, the opportunities for greater student success will undoubtedly increase. A quick review of the following Measure G projects offers a glimpse into the future of your community's college.*

The NEW Visual Arts Building

Student Services Building

Mathematics/Science Building

Administration Building

Campus Center Modernization (coming soon)

Stadium and Sports Facilities

Campus Safety

Educational Development Center (coming soon)

Center for Innovation

Hayden Hall Modernization (in progress)
