# **DID YOU KNOW?**

SEPTEMBER 2026

*Thank You*  
to every student who took the CCSSE survey last spring!

*Citrus College had the best response rate of any college in the country.*

## **1,038 students completed the survey.**

*Our goal was 1,000, so we hit 104% of our target – no other college in this year's CCSSE reached a higher rate.*

### **What is CCSSE?**

The Community College Survey of Student Engagement (CCSSE) is a national survey that asks students about their college experience, so colleges like ours can keep improving learning and support.

## **Here's what students told us – and how Citrus College compares to other community colleges nationwide:**

- **Do exams at Citrus College challenge students to do their best work?**

**79%** of our students agreed, compared to **76%** nationally.

- **How about students working together on class projects?**

**56%** said they worked with classmates on projects during class, compared to **48%** nationally.

- **Did you know Citrus College students use career counseling more?**

**36%** used career counseling services two or more times last year, compared to just **20%** nationally – one of our biggest leads ahead of the national average.

- **Does Citrus College do more to bring together students from different backgrounds?**

**65%** of our students said the college encourages interaction among students of different economic, social, and racial or ethnic backgrounds, compared to **64%** nationally.

*Thank you faculty and volunteer survey administrators for your support.  
Stay tuned – more results coming your way!*
