

# ASCC General Elections Candidate Statements

## Running for President

**Kaitlynn Larsonsilva**

Photo of Kaitlynn Larsonsilva

I have been here at Citrus for some time now, and I love this school. I am currently the President of the GSA Club. If elected, my main goal is to support the existing resources here on campus and promote them more to our students. Another goal would be to encourage more of our remote students to get involved in our campus community. I would also like to expand outreach to students on academic probation. As someone who was once on academic probation, finding a community here helped me earn the grades I needed to improve. I would like to help and promote more social clubs and community clubs on campus. There is an amazing community here on campus, and there needs to be more clubs to show that.

## Running for Vice President

**Carlos Rodriguez**

As Vice President of the ASCC, I hope to increase student involvement in social activities to enable the members of the student body to meet new people and collaborate with their peers in a non-classroom setting. I also plan to increase awareness of opportunities that students are eligible for and may be interested in, such as scholarships, club hosted events, and events hosted by the ASCC. In 2023, 46% of students were enrolled in online classes and the primary modes of communicating information on events, which are currently word of mouth and on-campus fliers, fail to reach almost half the student population. I'd like to work with the ASCC executive board to develop a way to reach a larger percentage of the student body.

## **Running for Legislative Liaison**

### **Majin Perez**

My name is Majin Perez. The only reason that could matter is so you'll know who you'll vote for! I'm running not for myself but to aggrandize the student body. I see my intended career as a journalist as an opportunity to listen and give back. For now, what I can do is bring your concerns to ASCC and lawmakers while keeping abreast about the way their actions affect you. As always, thank you.

### **Alyssa Rodriguez**

Photo of Alyssa Rodriguez

Hi! My name is Alyssa Rodriguez, a 1st Generation student majoring in Film, Television, and Electronic Media. I love advocating for art, going to museums, talking to new people, and taking any opportunity I can get. I will be proudly running as your Legislative Liaison, which means you and ASCC will have the clearest communication on events, proposals, programs, and anything that will be affecting our community college. As a Film Major, I am experienced in great communication and management which can be in your benefit when it comes to collaborations and student engagement. One thing I'd like to accomplish is to create many relations with clubs, programs, and students for the school year of Fall of 2026 through Spring of 2027. By using your student voice and expressing your interests, vote for me to accelerate our opportunities at Citrus College!

## **Running for Senator**

### **Alejandra Galaz**

My name is Alejandra Galaz, and my major is Business Administration here at Citrus College. I am running to be one of your ASCC senators for the upcoming school year. As an officer of ASCC, my main goal would be to leave a lasting impact on your Citrus College student life experience and help support your needs. Citrus has so much to offer students, and I would love to help enhance your time here through engaging activities and gatherings where you can build friendships and feel more included in a community outside of your classes. To accomplish this, I would thoughtfully collaborate and support the ideas of my fellow executive board members, along with voicing my own observations and opinions. I can't wait to gain more experience organizing events

with a team for you all and developing my communication skills as I meet more of the student body.

**Rose Enamorado Santos**

No statement submitted.

**Regina Azcorra**

Our students deserve representation, even when their lives are too busy to attend every meeting where decisions are made. As someone who works two jobs and attends school full-time, I understand how overwhelming it can feel to balance responsibilities while still trying to succeed. These experiences shape the way I see our campus community. Every day, I'm inspired by students who show up despite long shifts, who care for their families while pursuing an education, and who support one another in small but meaningful ways. Working in the Financial Aid Department has shown me how much our students carry and how much they deserve to be heard. I'm running for ASCC Senate because I want to advocate for those who don't always have the time or platform to speak up. I hope to bring warmth, understanding, and real representation to our student government.

## **Running for Student Trustee**

**Matthew Viramontes**

No statement submitted.

**Philip Ramos**

My name is Philip, and I am running to Student Trustee because I believe the board of Trustees needs a representative who truly listens and looks toward the future. I am 14 and I offer a unique, long-term perspective on the student experience at Citrus. I am not just here to fill a seat: I am here to ensure that student concerns are at the forefront of every Board decision. I am committed to being an accessible candidate. My goal is to bridge the gap between students and administration with energy, professionalism, and dedication. I may be the youngest candidate, but I am ready to work the hardest to ensure our college remains a place where every student can thrive.
